

Jim Ned SHAC

Meeting Minutes

3/15/2017

Members Present: Michelle Bryant

Tommy Bryant

Shasta McClure

Vickie Whitten

Exercise vs Diet again discussed as a route to possible policy suggestion. Everyone feels that the schools do a good job of balancing the diet and exercising. No new ideas are given. Lice policy reviewed, and the Lice policy suggested by the state reviewed. Possibility of a policy change suggestion discussed on the subject. The state does not require a student to be sent home with live lice found, and school policy is to send a student home with live lice. The discussion ended with a 3-1 vote against suggesting a change to the school policy to meet state suggestions. The elementary schools purchased first aid kits for the safe rooms and extra class areas. The high school and middle school did not. The SHAC was approached to supply money to fund this for the high school and middle school. The vote passed 4-0. The money will be given when the purchase is made. After asking several people to join, SHAC, the membership is still too small. This time of the year is very busy for all parents and hopefully it will be easier to recruit members at the beginning of the school year. The possibility of a flyer going out with the first of school paperwork is discussed to increase membership of SHAC, but no decision is reached. With all the fund raising going on for the various groups with the school, no ideas could be decided on as far as fund raising. Everyone feels overwhelmed at being asked for money as it is. This will be discussed at the next meeting.

Meeting adjourned.
