

SHAC MEETING DECEMBER 4, 2017

Members in Attendance: Michelle Bryant RN School Nurse at BG campus
Tommy Bryant SHAC Chairman

Money has been requested to be donated to the school nurses in order to help purchase the supplies needed to make emergency supply buckets for the safe rooms at each elementary school, and for the middle school and high school campuses. The amount is \$79. The decision is made to grant the request for the funds to be donated, and given to Raenese Byrom, the school nurse at the middle school and high school campuses.

Meeting notice is placed on the healthcare section of the school website under the SHAC section. Although the meeting attendance was better than usual, it was because M.Bryant called and personally asked several people to attend, and the meeting was scheduled in a location and time when all attending were in the area. Voluntary attendance is very difficult to get here at this time. Lack of time and lack of interest is the main obstacles to create a larger SHAC attendance.

Other subjects are discussed very briefly, as attendance is so poor at this time. Hopefully attendance will increase after the holidays.

The next meeting will be scheduled at a later date, and will be posted on the SHAC site.
