

Photoshop
Self Portrait Touchups
Red Eye, Eye Color, Blemishes, Wrinkles

1. Use one of your pictures or take a new picture and touch it up. Remove or fix the following:

- √ Red Eye
- √ Change your eye color to something other than the color it is
- √ Remove all your blemishes AND wrinkles

2. Save as: Self Portrait Touchup

3. Print a copy of the original and touched-up photo.

- √ Open Publisher and place a copy of each picture in a blank document
- √ Crop your picture so it is a portrait (head/neck only)
- √ Size pictures to approximately 4 inches
- √ Save as: Self Portraits
- √ Print to color printer
